## Introduction

Welcome to the Federal Emergency Management Agency’s (FEMA) National Household Survey on Disaster Preparedness (NHS). This survey seeks to understand how well the American public is prepared for a disaster and measures preparedness actions, attitudes, and motivations.

You have been selected to take a special survey about preparation for disasters and we would like to include your opinions. Responses will remain anonymous. This survey should take about 10 to 25 minutes to complete and participation is completely voluntary.

These questions comply with the Privacy Act of 1974 and have been approved by the Office of Management and Budget under number 1660-0105 expiring 1/31/2025 (FEMA Form Numbers: FF-008-FY-21-103, FF-008-FY-21-104, FF-008-FY-22-122). If you have any questions about the survey, you can reach a FEMA contact by emailing FEMA-Prepare@fema.dhs.gov.

## Stages of Change

# The following text is to be posted on the header of the "Stages of Change" page # A "disaster" is an event that could threaten lives, disrupt public or emergency services like water and power, or damage property.

**dis\_prep** A “disaster” is an event that could threaten lives, disrupt public or emergency services like water and power, or damage property. Have you considered preparing for a disaster?

- No
- Maybe
- Yes
- Yes, and I have taken steps to prepare
- Yes, and preparedness is part of my everyday life
- Don’t know

**dis\_soc** Thinking about preparing yourself for a disaster, which of the following best represents your degree of preparedness?

- I am NOT prepared, and I do not intend to prepare in the next year
- I am NOT prepared, but I intend to start preparing in the next year
- I am NOT prepared, but I intend to get prepared in the next six months
- I have been prepared for LESS than a year
- I have been prepared for MORE than a year and I continue preparing
- Don’t know

## Factors that Influence Preparedness Actions

# The following text is to be posted on the header of the “Influencers” page # A “disaster” is an event that could threaten lives, disrupt public or emergency services like water and power, or damage property.

### Awareness of Preparedness Information

**dis\_awareness** In the past year, what information have you read, seen, or heard about how to get better prepared for a disaster? (Select all that apply.)

- ☐ Assemble or update supplies
- ☐ Document and insure property
- ☐ Get involved in your community
- ☐ Know your evacuation routes
- ☐ Make a plan
- ☐ Make your home safer
- ☐ Plan with neighbors
- ☐ Practice emergency drills or habits
- ☐ Safeguard documents
- ☐ Save for a rainy day
- ☐ Sign up for alerts and warnings
- ☐ Test family communication plan
- None of the above # Exclusive #
- Don’t know # Exclusive #

**dis\_awareness\_source** # If any option other than “None of the above” or “Don’t know” is selected from

**dis\_awareness** # How did you get the information that you read, saw, or heard about getting better prepared for a disaster? (Select all that apply.)

- ☐ TV
- ☐ Radio
- ☐ Social media (Twitter, Instagram, Facebook, etc.)

- ☐ Tornado
- ☐ Tsunami
- ☐ Typhoon
- ☐ Utility interruption
- ☐ Volcanic eruption
- ☐ Wildfire
- ☐ Winter storm
- None of the above # Exclusive #
- Don't know # Exclusive #

**dis\_perception** Thinking about the area you live in, how likely would it be for a disaster to impact you?

- Very likely
- Likely
- Unlikely
- Don't know

## Preparedness Efficacy

**dis\_stepshelp** How much would taking steps to prepare help you get through a disaster in your area?

- A great deal
- Quite a bit
- Somewhat
- Very little
- Not at all
- Don't know

**dis\_confidence** How confident are you that you can take steps to prepare for a disaster in your area?

- Extremely confident
- Moderately confident
- Somewhat confident
- Slightly confident
- Not at all confident
- Don't know

## Disaster Experience

**dis\_exp** Have you or your family ever experienced the impacts of a disaster?

- Yes
- No
- Don't know

**dis\_exp\_types** # Display if dis\_exp equals "Yes" # What type(s) of disaster have you or your family experienced?  
(Select all that apply.)

- ☐ Active shooter
- ☐ Avalanche
- ☐ Biological attack

## Radiological Emergency

# Display Section to Radiological Emergency Sample Only #

# The following text is to be posted on the header of the “Radiological Emergency” page # A radiological emergency is type of radiological incident that poses an actual or potential hazard to public health or safety or loss of property. This hazard occurs through direct radiation exposure and/or indirectly through the spread of radioactive material which emits radiation.

This could be an unintentional incident such as a nuclear power plant accident or a transportation or occupational accident involving the spread of radioactive material. This could also be an intentional attack from a hidden radiological exposure device, a radiological dispersal device (dirty bomb), or a nuclear weapon.

**radem\_likelyactions** What actions are you likely to take in the event of a radiological emergency? (Select all that apply.)

- ☐ Seek shelter immediately, preferably underground or in an interior room of an undamaged building placing as much distance and dense shielding as possible between you and the outdoors where the radioactive material may be

- ☐ Seal windows and external doors that do not fit snugly with duct tape to reduce infiltration of radioactive particles
- ☐ If there is time, turn off ventilation and heating systems, close windows, vents, fireplace dampers, exhaust fans, and clothes dryer vents
- ☐ Cover my mouth and nose with a tissue, filter, or damp cloth to avoid inhaling or ingesting the radioactive material
- ☐ Make sure that nothing enters my mouth or is transferred to areas of my face where it could be easily ingested. For example, don't eat, drink, or smoke.
- ☐ Retrieve my disaster supplies kit and a battery-powered radio and take them to my shelter room
- ☐ Listen for official instructions and follow directions

**radem\_shelters** Taking shelter is crucial in the event of a radiological emergency such as a nuclear explosion. There are two types of shelters. A blast shelter is specifically constructed to offer protection against the initial blast pressure of a nuclear explosion. A fallout shelter is any protected space that provides walls and a roof thick and dense enough to absorb the radiation given off by fallout particles following a nuclear explosion. The robust construction and thick walls of a blast shelter means it can also serve as a fallout shelter. Are you familiar with these shelters – including nearby locations — available in your community?
